Plenty of Proof

From People You Know—From Norway Citizens

The greatest skeptic can hardly fail to be convinced by evidence like this. It is impossible to produce better proof of merit than the testimony of residents of Norway, of people who can be seen at any time. Read the following case of it:

M. M. Kilgore, Danforth Street, Norway, says: "I had backache and rheumatic pains for more than a year, caused by disordered kidneys. My kidneys acted irregularly and I was so lame and sore across the small of my back I could hardly stand. At night I rested but little, and was feeling miserable most of the time. I finally got Doan's Kidney Pills at F. P. Stone's Drug Store and a few boxes cured me."

Permanent Results
Over seven years later Mr. Kilgore said: "I gladly recommend Doan's Kidney Pills again as I am still a firm believer in them. The cure Doan's gave me has proven permanent."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Kilgore had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

SUIT OVER CHURCH BELL

The novel situation was presented in the Maine Law Court, today in one of the Oxford County cases, that the inhabitants of the town of Andover vs. McAllister. This is an action of replevin in which the town of Andover seeks to recover one church bell and is before the law court on an agreed statement of facts.

From these facts it appears that certain residents of the town of Andover made up a fund in the year 1870 for the purpose of purchasing a bell for the Methodist church in that town. Services were discontinued in the church in 1914 and in 1917 the church was sold to the defendant in this action, a lady who supposed she was purchasing the church and all that went with it.

Later the municipal officers of the town laid claim to the bell on the grounds that the bell was contributed by the original subscribers to the town and not to the Methodist church. Ralph R. Parker of Rumford arguing for the town and Matthew McCarthy of Rumford for the defendant.

EAST SUMNER

Seventh Generation

By the advent of the son in the family of Mrs. Raymond Keene, some two months ago, the seventh successive generation has come to the town of East Sumner. They are in order as follows: Deacon Increase Robinson, his son, Increase, Jr., Deacon Sharon Robinson, Sharon Robinson, Jr., Adelle, his daughter, who married Ezra Keene, her son, Raymond, who married Stella Bowen, their two months old son, Roland Eugene Keene, making the seventh generation on the farm.

Deacon Increase Robinson and family came to the place from Pembroke, Mass., in 1783, being the sixth family to locate in town. He made a clearing, built a saw mill, still standing, though with modern machinery, and in 1785 erected the first frame house, still standing in good condition and occupied by Mary and Martha, the twin daughters of Deacon Sharon Robinson. The said twins are now in the 75th year, such a record being rare.

Shoe Prices

I want to take a little time and some space in this paper, that I may discuss with the readers of this article or advertisement, the shoe situation as it now stands. We will admit that prices are high, much higher than they ought to be, but we do not admit that they are out of proportion to the other necessities of life. I have recently paid \$6.00 for a barrel of apples and I am perfectly satisfied with the price and surely believe that they could not be sold for less at a profit. I pay 65 cents per pound for butter, 12 cents a bottle for milk and so on down the list, and the producers are not getting any more than they ought to have for their work.

We have at the present time a store full of footwear of all kinds which we bought and are selling below the market price to-day. Our retail price on more than half our stock is less than we can buy at wholesale. It has always been the purpose and policy of this store to give our customers full value for their money, and this policy has surely been the means of bringing to us a good business which has increased year after year. Our customers have been loyal to us and we surely appreciate it. Now as the holidays are approaching we will suggest that you buy useful gifts and we are sure that footwear of all kinds is always useful and acceptable. We are also positive that we can suit you in style, quality and price.

We are fitting up and expect to have in operation in a few weeks, a modern boot and shoe repair department. We shall have all new and up to date machinery and intend to have as good a repair shop as can be found anywhere.

George Davee will be in charge and that fact is a guarantee that the work will be done right. We shall use the best of stock and our prices will be as low as good work can be done. We shall make a great effort to get the work out promptly. You will be informed when this department is ready for business. Save your repairing for us.

NORWAY AND VICINITY

The Maine Rovers of Lewiston to play basket ball here Friday evening are not a dinky lottery, but seniors from Bates College. The Norway High manager wishes this fact made clear to the public. It has been "revived" on several occasions. The visitors are no relation to their namesake in baseball. This will prove one of the big fights in the winter series.

A few degrees below zero Tuesday morning, and the near zero mark at noon with a strong wind made the day uncomfortable. It was considered real winter in the rural districts, minus the usual snow on the ground at this season.

Mrs. Agnes L. Morton substituted at the organ in the Universalist church, Sunday afternoon for Mrs. Edie Akers.

Mr. and Mrs. W. E. Marks of Newport News, Va., announce the engagement of their daughter, Susie Marks to Harold W. Chandler of Bethel and Norway.

W. A. Haines, who was in charge of Paris Bakery with rooms at Howard W. Shaw's, has moved to Norway and employed in the Twin Town Bakery.

There will be a meeting of the American Legion in G. A. R. hall, South Paris, at eight o'clock p. m., Friday, December 19, 1919. There will be an important meeting to all present.

William F. Kneeland returned from Portland, Monday evening, where he has been during the past four weeks at Dr. Bing's hospital. A successful operation was performed on the brain and a water tumor removed. He is about town and rapidly gaining flesh and strength. If no unfavorable conditions develop Mr. Kneeland expects to have employment within a few weeks.

campaign for the adoption of the star-

been gathered together in orphanages

are receiving the barest necessities of
life. By the hundreds because relief
workers are overwhelmed by the mag-

supplies needed in such an emergency.
The plan outlined by the Near East Bo-

adopted by the women of Maine and

homeless child in Armenia will find a

Gallus? "Gets-It" Will Peel It Off!

Nothing on Earth Like Simple "Gets-It" for Corns or Calluses.

A callus, or thickened skin on the sole of the foot, which often makes walking a misery is of the same nature as a corn. "Gets-It"

Use "Gets-It" and Dance, Even with Corns removed it as easily as it does the toughest corns. By using a few drops of "Gets-It" on the callus, you will be able to peel it off with your fingers, in one minute, just as you would a banana peel. It leaves the skin free and smooth as though you never had a callus. "Gets-It" is the national corn remover, the biggest on earth, used by millions. It never fails. You'll work, play and dance at ease in spite of corns. "Gets-It," the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. Sold by E. Lawrence & Co., Chicago, Ill. Sold in Norway and recommended as the world's best corn remedy by F. P. Stone.

ANNOUNCEMENT ABOUT MUSIC

Many customers who come into my store for some particular article of musical merchandise express surprise to see such a variety of things with which to make harmony so I have decided to try to give the public a better idea of what can be obtained here. The main idea of the store is to supply the public with what they want in the line of music. As noted in the Advertiser of August 29 I recognize that there is a great diversity of opinion as to what is needed to make harmony but whatever it is I intend to have it if I know that the people want it. So if you don't see what you want, ask for it and I will do my best to get it for you. You may not want a bass drum but the other fellow will. Perhaps you will want your growing son to have a trombone. Some folks think that all that is necessary to make harmony is some good reading matter and the less noise the better. Suit yourself about that, but here's where you can find it. From some of the letters I have received in the prize competition it would appear that music has nothing whatsoever to do with sound. More about that later.

Well here you can find Victorias, Gramophones, records of all kinds, "City" to "Casey Taking the Census," record albums, brushes, oil, grease, catalogues, sheet music and albums of all kinds of music (if I were to put in the names of the pieces they would fill many papers the size of this one) instruction books for all kinds of instruments, B flat bass horn, music stands, mandolins all sizes, shape and prices (the best is the Gibson), violins, strings, mutes, fittings, E-string tuners, rosin, bows, cases, guitars, Hawaiian guitars, Hawaiian Sets, green cloth cases, strings, capodastros, chin rests, harmonicas, music satchels, pianos, tambourines, and many other articles which maybe I will mention another time.

On rare occasions I have used instruments of different kinds which bear an attractive price. Just now I happen to have two used graphophones practically as good as new at a reduced price. Then there is most always the special sale sheet music 10 for 50 cents (the kind not much called for or somewhat worn at the back) 22 for one dollar—my selection. I have a used Edison cylinder machine with about 50 records which someone will get at a low price. The books which I keep for sale are high grade story books, those about musicians and music. I also carry a full line of Webster's Dictionaries and the Scofield reference Bible. Come in and let me show them to you. Maybe you can get more music out of one of these than you could out of a trombone. I nearly forgot the oil paintings and the reproductions of the old masters. They are worth looking at if you do not want to buy. Anyway, come in and look around even if you do not want to buy anything. If you want to hear a record or two just say so and I will be glad to play them to you. If I am interested enough to sell a musical instrument occasionally and to have people have them in their homes for enjoyment I certainly should be willing to play a record occasionally here in my store to someone who has no thought of buying.

MAINE WOMAN'S PLAY

Heard in Boston
Two ladies and two gentlemen came out of a theatre in Boston the other day and on remarking that I knew one of the ladies to be a Maine woman, I heard the following bit of news. "Yes, that is Mrs. Elizabeth Pike of Waterford, Me., and author of what they tell me is sure to be a very successful play about to be put on the stage in New York. The gentleman who handled the ladies into the car is a theatrical manager and play producer; he has purchased Mrs. Pike's play. I hear she started it for a novel and was asked to change it into this play, after it was nearly ready for the publisher."

The other gentleman and his wife told me this, he is a member of a publishing firm of this city and speaks very highly of the play, says it is full of brilliance and humor, as well as heart-stirring. While the Mrs. speaks as highly of its author, says she is a true little lady, modest and sweet. She is stopping out Brookline way, I hear."

This will be of interest to your readers as Mrs. Pike is well known in Oxford County, having held office in Oxford Co. Pomona for a number of years.

Don't Blame the Carburetor

You can't expect to get utmost gasoline economy and engine efficiency if you constantly fill up with various fuels of different qualities—that require different carburetor adjustments.

That is why many a motor is operated on a wasteful mixture that neither gives adequate power nor burns up cleanly—that gives low mileage per gallon and quickly carbonizes valves, spark plugs and pistons.

There's one sure way to avoid fuel extravagance and engine trouble. Standardize on carefully refined, definitely uniform, clean-burning SOCONY Motor Gasoline—sold everywhere.

KEZAR FALLS

Norton-Garner
It was to be a very quiet wedding for the bridegroom had recently lost a dear friend and was to take place away from the old home town, with only the parents of the bride as witnesses, but the storm of indignant protest from other near relatives, who refused to be counted out, augmented the number so that the immediate family circle were all present at the ceremony, which occurred Dec. 2nd, 10 a. m. in the parsonage of Clark's Memorial church, Woodford, Rev. Cymbrid Hughes officiating.

William T. Norton, the groom and Florence R. Garner, the bride, were both of Kezar Falls and looked their best on the important occasion, and there was no mistaking the character of their responses. After the pronouncement by the minister and the greetings and congratulations of the friends they were passed on to the ministrations of a photographer waiting in an adjoining room from which they soon emerged, with the "look pleasant, please," still on their faces.

All were invited to the dining room, where they sat down to a table laden with everything pleasing to the eye and the palate and graced with a most beautiful wedding cake of the "lady of the manse's" own concoction.

It was while in the car just previous to the start for the station that the first volley of confetti was fired and by the man who had so recently bound them in bonds which only death might sever; the well directed aim struck the groom between his shoulders, where the pink, white and blue particles sifting into the long nap of his overcoat made him a marked man. The look he turned on the author of his wedding was eloquent with reproach. All too soon they came to the parting of the ways, the iron horse and the big whirling wheels parted them from the fun loving crowd and bore them away to that mecca of many travellets, the good old city of Boston.

Susan Chapman
Again the community mourns the passing of a dear friend, Susan Chapman, to whom the call came very suddenly on the eighty-fourth anniversary of her natal day. She was a very intelligent and interesting woman and also a capable one. She leaves two sisters and many nephews and nieces beside her friends. The services were held at the residence of her sister, Mrs. Olive Stacy, with whom she made her home, Rev. Mr. Kewley officiating.

The remains of Jesse Benton, formerly of this town, but for many years a resident of Boston, was brought home for interment, services being held Dec. 9th at the residence of his brother, F. W. Benton.
